

Getting Started in Your Course Video Transcript

Let's get started.

Every time you access your course, you will start from course home. From here, you have access to a variety of resources.

Along the top bar (or along the bottom on mobile), a glossary includes industry-related terms and definitions. You can scroll through or search by words or terms you'd like to learn more about. Use the back button or select Course Home to return to your home page, where you'll also have access to this support area, which includes options to contact our support team via email, chat, or phone.

On the right of your course home, the course progress area shows you what percentage of the course content is complete, as well as the amount of time you've spent in the course thus far. You may also see either the recommended or required minimum time that you'll spend in the course, depending on the requirements in your state.

You'll be able to save course materials for quick access, and see them in this bookmarked resources area. You can also access all course resources from this area, but you'll learn more about these in your "Working in Your Course video."

Also from your course home, you'll see that your course is organized into sections that you will need to progress through in order. Each section is broken down further into units, and then into lessons. From the table of contents, you can scroll down to see upcoming content. You can select the section to expand and see the units, or expand the View Upcoming to view the entire course's topics.

You'll also be able to use the table of contents to go back and review any of your previous lessons once you've completed them, so you have full control over pace with the content.

To exit the course, select the drop down next to your name in the upper right corner of your screen. Then when you reenter the course, the "Take me where I left off" button will advance you to the part of the course that you've yet to complete, so you can pick right back up where you left off without missing a beat.
